PERSONAL PROFILE

As a reliable hardworking individual with skills in fast and organised learning there is a desire to achieve the best outcomes when it comes to the work that I will be doing. With a strong background in communication and problem solving I can identify areas in which I am not so confident in and ask for help to ensure that I improve and work on areas that I am weakest at to make sure that I succeed in the long term. I love the idea of working hard and this has pushed me to learn content ahead of time whether it being at work or in academics. Having taken part in projects by myself and with others, I have become used to a variety of difficulties of tasks that I do and enjoy new challenges that lie ahead. Your apprenticeship interests me, and is something I would like to pursue and further gain more experience in.

| - Excellent at multitasking | |
| - Organised | |
| - Collaborative | |
| - Proactive | |
| - Passionate | |

EXPERIENCE

Teacher Assistant, *Ellen Wilkinson Primary School*

10th February 2020 – 14th February 2020

- At my primary school placement, my duties included helping with many tasks like organising worksheets, setting up activities and helping children in lessons.
- Through this I have improved my communication skills and my ability to multitask and displayed my organisation skills within a working environment.

Front Of House Member, *Wagamama*

Currently since 12th August 2022

- I work in a restaurant with a team to ensure customers felt satisfied, here I further developed my communication skills within a more mature environment.
- I learnt to talk to customers, serve customers and take orders.
- Within this job, multitasking was required as I had to work in different sections of the restaurant from making drinks to serving food to sitting customers down.
- I am a fast learner as I had a week to train for the position before I was an official team member and I continue to learn through the online courses.

EDUCATION

A-levels: *London Academy of Excellence 2021-2023: 322 High St, London E15 1AJ*

Studied: Chemistry - B

Math - B

Economics - B

GCSEs: Cumberland Community School 2016-2021: Oban CI, London E13 8SJ

English literature-8

English language-8

Math-9

Statistics-9

Geography-9

Computer Science-8

Religious Studies-8

Chemistry-9

Biology-8

Physics-8

French-7

ACTIVITIES

School Computing Project-

Over the summer holidays of 2022 I entered an extracurricular project in which we, the students, got to choose what coding project we wanted to do. During the project I worked with a friend, and we decided to make a website through learning HTML and CSS. Throughout the holiday we worked together and learnt the basics in formatting a webpage and ensured there was good user interface.

Gym-

In my free time I exercise outside of home in either a park or a gym, whilst exercising I love to meet new people and get to know them.

Competitive Swimming-

I swam for a club for about 8 years, whilst swimming for the club, I was organised and had great time management as schoolwork overlapped with my swimming.

PERSONAL INTEREST

I am interested in learning new skills and go to the extent to learning it myself. As of right now I have just learnt JavaScript and have knowledge in HTML, CSS and a bit of Python. I am quite confident in them, but I have yet to consolidate my Python and JavaScript skills. Using the knowledge, I have made a couple webpages consisting of my portfolio, an ecommerce and a clone of a website. Whilst coding in the project I learnt best practices and when I got stuck, I found solutions around them either through asking for help or researching it online.
